## FAQ's:

### Can I bring my own food/drink?

No, as the National Aviary's exclusive caterer, we ask that no outside food or beverages be permitted. If any outside foods are brought into the birthday party space, we will ask that the food be put away until the end of the party. One of the few exceptions is that you are allowed to bring a birthday cake, or cupcakes.

### I have a cake, should I bring my own knife?

No, we provide complimentary cake cutting. If you have a cake, please let the server working your party know what time you will be ready for the cake cutting. If you are not providing a cake or cupcakes, ask us about adding Chocolate Chunk Cookies for an extra \$2 per person to your package.

### How do you handle guests with allergies?

We can accommodate a variety of food allergies and dietary restrictions. We are a nut-friendly kitchen except for pre-packaged items that we sell in our cafe. We are proud to say that our staff understands all major allergies (gluten, dairy, egg, soy, etc.) and will take proper precautions. However, we are not an allergy-free kitchen and there is the possibility for cross-contamination. That being said, if you have a guest who is uncomfortable eating from the package selected because of their allergies, and/or has religious food restrictions, this is also one of the few exceptions to allowing outside food into the Aviary for that specific person.
